

QP40V Hydraulic Power Unit

DESCRIPTION

This all in-tank hydraulic power unit provides the fluid power necessary to articulate any large Quantum Stabilizer. The fully submerged, fan-less electric motor coupled with the 100 cc multi pressure pump with a silencer on the pump outlet, therefore minimizing ambient noise. Multiple vibration dampeners in and outside the unit ensure minimal structural vibration transfer to further reduce noise.

Designed for any contingency, the heat exchanger with integrated fins and added gear pump will ensure the hydraulic system always keeps its cool.

FEATURES:

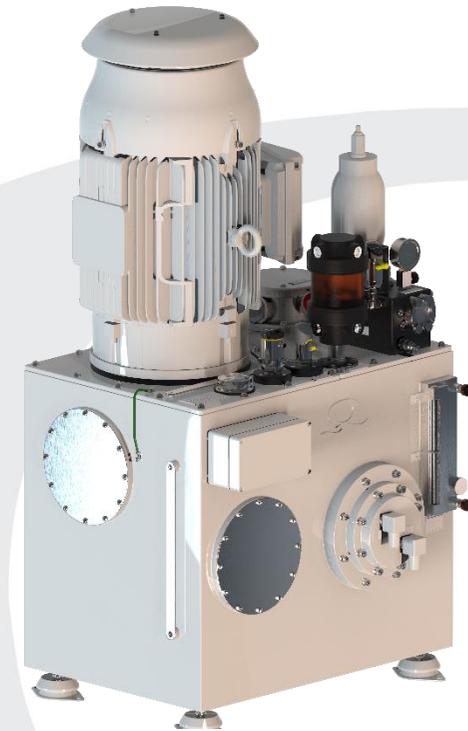

SIMPLE INSTALLATION: The QP40V consolidates maximum machinery output into a small footprint. This compact unit can be easily positioned into tight machinery spaces designed to incorporate maximum hydraulic function within a single “plug and play” assembly. Thus, straightforward connections for mechanical installation, as well as hydraulic and cooling pipe work.

EFFICIENT: The power unit, housed in a stainless steel tank only draws the minimum power necessary to operate the hydraulic components on demand, thus reducing the load on the vessel’s electrical power grid and cooling systems.

MINIMAL NOISE: This is Quantum’s quietest 40 hp HPU to date, independently tested to optimize components for minimal vibration levels.

APPEARANCE: The durable high gloss epoxy paint finish is mirrored by the military grade black anodized manifold. All DIN plugs are illuminated to show their activity while the clear digital displays for temperature, pressure and level can be easily read on the HPU or remotely on a HMI.

*Equipment is covered by Quantum’s 1-year comprehensive warranty.
Service and technical support are available worldwide.*

Operating Capacity*	30kW (40hp)
Operating Pressure	207bar (3000psi)
Tank Capacity	188L (60Gal)
Length (overall)**	914mm (36")
Height (overall)**	1485mm (59")
Depth (overall)**	659mm (26")
Weight Inc. (dry)	621kg (1370lbs)

**Provided for reference only. Consult a Quantum representative for system sizing.
** Dimensions are of the equipment, and do not include service allowances.*
